

Ruby Midlevel Exercises

Use the Ruby Guide and online ruby documentation to complete these exercises.

1. Times block and arrays

Use the .times block to save powers of three from 0 to 10 in an array [1, 3, 9, ... 19683].

2. Ranges

Use a Ruby range to print out all words between "Bar" and "Pub"

3. Classes and methods

Create two classes: Cat and Mammal.

Cat should inherit from Mammal.

Each class should have at least one method and one attribute.
